

ANIKET SAMBHER

+1 (857) 277-2753 — sambher.a@northeastern.edu — [LinkedIn](#)

EDUCATION

Northeastern University
M.S., Computer Science

Expected Aug 2028
Boston, MA

Manipal Institute of Technology
B. Tech, Computer Science and Engineering
CGPA: 8.86

June 2023
Manipal, India

EXPERIENCE

Software Engineer II
JPMorgan Chase & Co.

May 2023 - Aug 2026
Bangalore, India

- Worked on Unified Data Store (UDS), a queryable SDLC data graph consolidating signals from **25+** enterprise tools across source control, builds, deployments and incidents, by onboarding DORA metrics (MTTR, deployment frequency, change failure rate) through distributed enrichment workflows and serving them in a developer efficiency dashboard on AWS and Kubernetes.
- Hardened data collection end-to-end: added reconciliation to ingestion workflows, cutting missing data items by **99%**
- Led the implementation of a net-new data validation microservice (Spring Boot, K8s) to ensure data consistency across a distributed system. The service performs real-time validation against the source-of-truth, reducing data discrepancies by **95%**.
- Spearheaded the cross-functional development of a commit risk platform, integrating ML models to assign risk scores to PRs. Drove the technical design, collaborated with data scientists on model deployment, and established a feedback loop to track efficacy, resulting in a **40%** reduction in production incidents caused by buggy code.
- Made data retrieval and processing roughly **10x** faster across platform APIs by designing and integrating a **Redis** caching layer.
- Designed, developed, and maintained robust APIs for seamless data communication.

SKILLS

Languages	Java, Python, C++, SQL
Frameworks	Spring Boot, Mockito
Infrastructure	AWS, Kubernetes, Jenkins, Prometheus, Git
Databases	Aurora PostgreSQL, Redis
Certification	AWS Developer Associate (Certification Link)
Algorithms	LeetCode Knight (Peak Rating: 1980)

ACHIEVEMENTS

- **Finalist, American Express Codestreet** — Selected among the top 10 teams out of **10,000+** students for building a financial application for American Express.
- **Code for Good, JPMorgan Chase & Co.** — Built a web login portal for peer-to-peer matching of students with mentors for the NGO Claylab Foundation.
- **Citi Digital Innovation Challenge** — Cleared the prototype phase.
